Education

University of California, Davis

Master of Science in Computer Science

Sep 2024 – Jun 2026

GPA: 3.74/4

SRM Valliammai Engineering College

B.E. Computer Science, Department Gold Medalist

Sep 2020 – Apr 2024

GPA: 9.44/10

Technical Skills

Languages: Python, Java, C, C++, SQL, .NET

ML/AI: Scikit-learn, TensorFlow, PyTorch, Keras, OpenCV, LangChain, Pandas, NumPy

Databases & Cloud: PostgreSQL, MongoDB, AWS, Docker, Kubernetes,

Data Visualization & Analytics: Power BI, Tableau, Matplotlib, Seaborn

Backend Stack & Infrastructure: REST APIs, Flask, Linux/Unix

Core Competencies: NLP, Model Training, Feature Engineering, SDLC, Caching, RAG, Quality Assurance, API Design and Management

Work Experience

SWE Intern, Data & Systems - California Department of Public Health

Sep 2025 – Dec 2025

- Developed an **AI-driven facility inspection prioritization system** at the **Center for Environmental Health, Food and Drug Section**, leveraging **machine learning algorithms** to analyze **inspection history and violation patterns**.
- Incorporated **proximity to hubs and geographic data** to enhance prioritization accuracy, improving efficiency in inspection planning for **Los Angeles, San Francisco, and Kern County**.
- Designed and prototyped an end-to-end application that enables inspection officers to **prioritize facilities and generate optimized visit routes** using real-time location data, streamlining decision-making and field operations.

AI/ML Software Developer Intern - Koni Ameri Tech Services Inc.

Jun 2025 – Sep 2025

- Contributed to the development of an **ONC-Accredited Electronic Healthcare System** aimed at improving clinical decision-making.
- Assisted in building a structured healthcare database system to support clinical data management and decision workflows.
- Participated in the design and implementation of an **Adverse Event Database** to enhance safety and precision in healthcare recommendations.

Projects

Feasibility Lens | *Python, RAG, LLMs* | [Link](#)

Feb 2025

- Developed a system to assess research feasibility by integrating Retrieval-Augmented Generation (RAG) with LLMs, optimizing domain-specific knowledge retrieval.
- Improved retrieval accuracy from **0.53** to **0.8** and classification accuracy from **0.5** to **0.9** using retrieved text context.

Optimizing Donor–Patient Compatibility for Organ Allocation | *Python, Scipy, Pandas, Sklearn* | [Link](#)

Mar 2024

- Developed a kidney allocation system that matches donors to recipients based on kidney size, donor location, and blood group, achieving **95%** accuracy.
- Processed and prepared a dataset of **40,000** entries for analysis and model development.

Medical Mask Recognition using DL | *Python, Keras, Tensorflow, Sklearn, OpenCV* | [Link](#)

Nov 2023

- Designed and implemented a medical mask recognition system using live video streams to detect mask usage and trigger alerts for non-compliance.
- Analyzed **16,000** data samples prior to model training and achieved **99%** accuracy.

Publications

Medical Mask Recognition using Deep Learning

Apr 2024

- Trained a deep learning model for real-time mask compliance detection with automated alerts. [Paper](#)

Enhancing NLP Models for Sentiment Analysis in Social Media Texts

Aug 2023

- Evaluated transformer-based NLP models for sentiment analysis, analyzing accuracy and deployment trade-offs. [Paper](#)

Leadership & Skills

Teaching Assistant - UC Davis (Department of Computer Science)

Jan 2026 – Mar 2026

- Supported 150+ students through weekly office hours, resolving complex C++ and Unix issues while teaching low-level programming, debugging, and memory management.

Campus Ambassador - Skillmax Academy

Jan 2022 – Mar 2022

- Led campus outreach, engaging 200+ students and driving digital growth through 30+ social media posts that increased followers by 7% and engagement by 15%.

Growth Central VC - Subject Matter Expert Intern

Nov 2021 – Dec 2021

- Partnered with Marketing, Product, and Operations teams to integrate technical expertise into 5+ strategic initiatives, improving project outcomes by 20%.
- Led 10+ brainstorming sessions generating 50+ actionable ideas for portfolio company growth strategies.
